1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following changes have been made to the subject application:

**Claim 10:**

**Line 2, “::” has been changed to --:--.**

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest a combination of means for selectively driving unequal signal currents through the first and the second signal carrying conductors, respectively, wherein the difference current, between the unequal signal currents, flows back to the means for selectively driving; a terminating resistor connected between the distal ends of the first and the second signal carrying conductors, wherein no common mode signals are introduced into or measured along the terminating resistor as called for in claims 1 and 10. Therefore, claims 1-18 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
